

# HAWKS VESSELS

TANKERS & BARGES

Think smart - Supply fast

# INTRODUCTION

Fuel supply is at the heart of what The Hawks does as a company. We play a key role in directly importing and distributing petrol and diesel to any location in the Maldives. Our strong fleet, backed by the latest safety equipment and segregated tanks, include 14 delivery barges from 15 to 300 cbm and 5 tankers with a capacity from 1000 cbm to 10,500 cbm.

A total of 19 vessels are continuously in operation to deliver fuel whenever and wherever our clients need it. Regardless of surrounding conditions, we are prepared to supply to islands far and wide, including those with shallow lagoons or poor harbour facilities.
